

<b>Bulletin No.</b>	2017.IJTC.02
<b>Bulletin Date</b>	17 <sup>th</sup> February 2017
<b>Effective</b>	17 <sup>th</sup> February 2017
<b>Subject</b>	2017 Technical Regulations for Indian Junior Touring Car (TC-2)

## A) 13.1 Exhaust

### Existing

Free

Fitment dose not entail the modification of other components.

The Exit of the Exhaust pipe shall be at the Rear of the Car below the Bumper.

The noise level must respect the stated maximum prescribed by the ASN where the car competes.

### Amended

Free

Fitment dose not entail the modification of other components.

The exit of the exhaust may be on the right or left side of the car, behind the mid-point of the wheelbase and below the door sill.

The noise level must respect the stated maximum prescribed by the ASN where the car competes.

## B) 21.1 Suspension

### Add :

Front and Rear suspension top mount - fitting of uniball joint is permitted and modifications required in the strut tower to accommodate the uniball joint may be allowed as long as mounting points remain unchanged.
